

PEPFAR Alcohol and HIV Technical Meeting, 2011

Key Themes and Challenges

Alcohol misuse and HIV share a context of vulnerability.

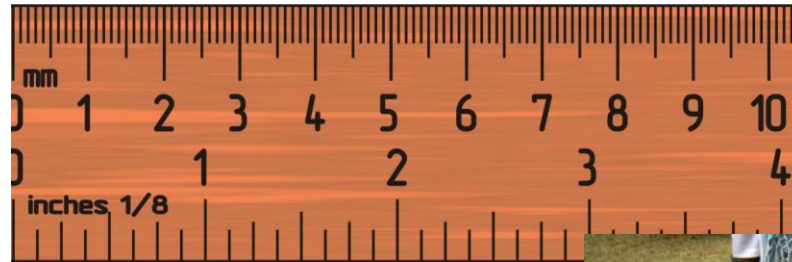

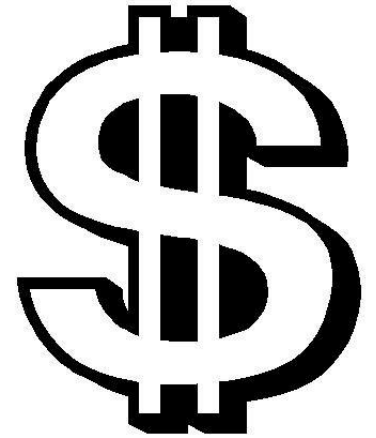

Misuse of alcohol threatens
ALL aspects of HIV
Prevention, Care and
Treatment

Integration

You have made enormous progress

- Laws: levies, regulations, limits
- Policies: protocols, guidelines
- Research: evidence of the relationship
- Programs: e.g. Paphama, Soul City Buddies
- Advocacy: e.g. Stand Up, It's Enough

Measurement of program impact is a key challenge.

Both alcohol and HIV programs need community champions.

Headquarters help: next steps

- Work with multilaterals on global leadership
- Support you to support each other
- Consolidate lessons learned at the HQ level

Headquarters help: what do
you need?

Cheers for the
Organizing Committee!
